Under the Zunde RaMambo/Isiphala SeNkosi Programme, a cumulative total of 4 362.51 mt of grain has been collected by Chiefs across the country in order to cater for the members of society. Under the Urban-Cash-for-Cereals-Programme, 27 877 beneficiaries have been reached with cash disbursements as at 25 October 2024.

The Emergency Schools Feeding Programme continues to be part of the Food Distribution Programme, as learners are having their hot meals on a daily basis. As at 10 November, 2024, a cumulative total of 19 091.28 mt mealie meal/maize grain had been collected under this Programme.

2.0 PROPOSALS ON PRIVATE SECTOR PARTICIPATION IN THE DEVELOPMENT, REFURBISHMENT, UPGRADE, REPAIR AND MAINTENANCE OF THE COUNTRY'S SPORTS STADIA

Cabinet considered and approved the Proposals on Private Sector Participation in the Development, Refurbishment, Upgrade, Repair and Maintenance of the Country's Sports Stadia, which was presented by the Minister of Local Government and Public Works, Honourable Eng. Daniel Garwe.

Cabinet approved strategies aimed at developing, refurbishing, upgrading, repairing and maintaining the country's sports stadia, which include leveraging on Built-Operate and Transfer Model; Government's commitment to guarantee land in support of the utilisation of the International Federation

of Football Association (FIFA) Forward 2.0 Funding Initiative; Government-Private Sector Funded projects; and Grassroots Sporting Facilities Development as well as allowing sports clubs to establish their own stadia. Priority will be given to the construction of a New Stadium in the New City, at Mt. Hampden; and refurbishment of existing stadia namely: Dzivarasekwa, Gwanzura and Mabvuku in Harare; Barbourfields, Luveve, and White City in Bulawayo; Ascot in Gweru; and Chipadze in Bindura. Government intends to replicate similar strategies in the refurbishment of stadia in other cities and towns throughout the country.

Cabinet wishes to highlight that refurbishment of the National Sports Stadium in Harare to Confederation of African Federation (CAF) approved Standards is at an advanced stage of completion.

3.0 PRINCIPLES OF THE PRIVATE INVESTIGATORS AND SECURITY GUARDS (CONTROL) AMENDMENT BILL

Cabinet considered and approved Principles of the Private Investigators and Security Guards (Control) Bill, as presented by the Minister of Home Affairs and Cultural Heritage, Honourable Kazembe Kazembe.

The exponential growth of the security sector and technological advancements necessitated amendment of the Principles of the Private Investigators and Security Guards (Control) Act [Chapter 27:10].

The Amendment Bill provides for the establishment of the Zimbabwe Private Security Regulatory Authority which will contribute to public protection through the setting and improving of standards in the private security industry and promoting compliance. It will also enhance public confidence in the country's private security services. More specifically, the primary duty of the Authority is to ensure that players in the private security industry comply with governing legislation, and set standards and codes of conduct through licensing, training, monitoring and inspections. The Authority will be mandated to ensure that security guards and persons holding management positions in private security have the requisite training and credentials.

Additionally, the Authority will monitor and enforce adherence to the law, investigate grievances, and penalize persons who violate the Act, and the code of conduct. Furthermore, the Principles of the Private Investigators and Security Guards (Control) provide for the appointment of the Zimbabwe Private Security Regulatory Authority Board whose tenure of office, conditions of service as well as dismissal and other facets of the corporate governance shall be in line with the Public Entities Corporate Governance Act [*Chapter 10:31*]. The Principles further provide for the setting up of the Office of the Controller, who shall be appointed on the basis of her/his expertise, which among other competencies, will be a public security background.

The Amendment seeks to incorporate the licensing of persons or companies selling, or providing services defined as security services such as locksmith, CCTV installers, among others. It also introduces new regulation criteria for

private investigators by amending section 7 of the Act, which provides for the licensing of the private investigators. It gives the licensed investigators the power to employ without limit other private investigators and consulting or getting the approval of the Regulator. The private investigators licence will only be granted by the Authority when an applicant has successfully undergone thorough background checks, completed training, and achieved a Government-recognised qualification.

4.0 UTILISATION OF THE UN-OWNED API/PNR GO-TRAVEL DATA SOFTWARE SOLUTION IN THE ESTABLISHMENT OF ADVANCE PASSENGER INFORMATION AND PASSENGER NAME RECORD IN ZIMBABWE

Cabinet considered and approved the Utilisation of the UN-owned API/PNR goTravel Data Software Solution in the Establishment of Advance Passenger Information and Passenger Name Record in Zimbabwe, which was presented by the Minister of Transport and Infrastructural Development, Honourable Felix Mhona.

The utilisation of the United Nations Office of Counter Terrorism (UNOCT)-owned goTravel software solution in Zimbabwe aims to strengthen the country's capacity to prevent, detect and intercept terrorists and their movements by collecting and analyzing passenger data through the use of automated Advance Passenger Information and Passenger Name Record systems, in conformity with United Nations Security Council Resolutions

2178, 2396 and 2482, International Civil Aviation Organisation Standards and Recommended Practices and international human rights principles.

5.0 IMPLEMENTATION FRAMEWORK FOR THE TRANSFORMATION OF THE VOCATIONAL TRAINING AND SKILLS DEVELOPMENT SYSTEM: 2025-2028

Cabinet considered and approved the Implementation Framework for the Transformation of the Vocational Training and Skills Development System: 2025 to 2028, which was presented by the Minister of Higher and Tertiary Education, Innovation, Science and Technology Development, Honourable Dr. Fredrick Shava, as Chairman of the Cabinet Committee on Human Capital Development, Skills Application and Employment Creation.

The main objective of the Transformation Strategy and its Implementation Framework is to improve the quality, relevance and inclusivity of the vocational skills training programme. The transformation process is also aimed at enabling the Vocational Training Centres (VTCs) to offer specialized training related to the local resource endowments in order to support the value chains across all provinces in the country. Furthermore, the transformation process will compliment other Government programmes such as the establishment of Village Business Units, the *Pfumvudza/Intwasa* Programme, National Solarisation Programme and Housing Schemes, which will require skilled manpower for rural industrialization, and ultimately contribute towards the realisation of Vision 2030

The Implementation Framework seeks to facilitate the effective and efficient achievement of the goals and objectives of the Strategic Framework for the Transformation of the Vocational Training System which runs from January 2025 to December 2028. The Framework also describes the major activities which will be undertaken by Government to transform and modernise the Vocational Training System.

6.0 MID-YEAR REPORTS ON PRIORITY PROJECTS FOR THE THIRD 100-DAY CYCLE OF 2024

Cabinet received reports on progress made in the implementation of priority projects for the Third 100-Day Cycle of 2024, as presented by the Ministers of Home Affairs and Cultural Heritage; National Housing and Social Amenities; Health and Child Care; and Energy and Power Development.
